January 10, 2025

Hosted by: Adam Sarty

*(Associate VP Research /
Dean of Grad Studies & Research)*

and the FGSR Research
Office team

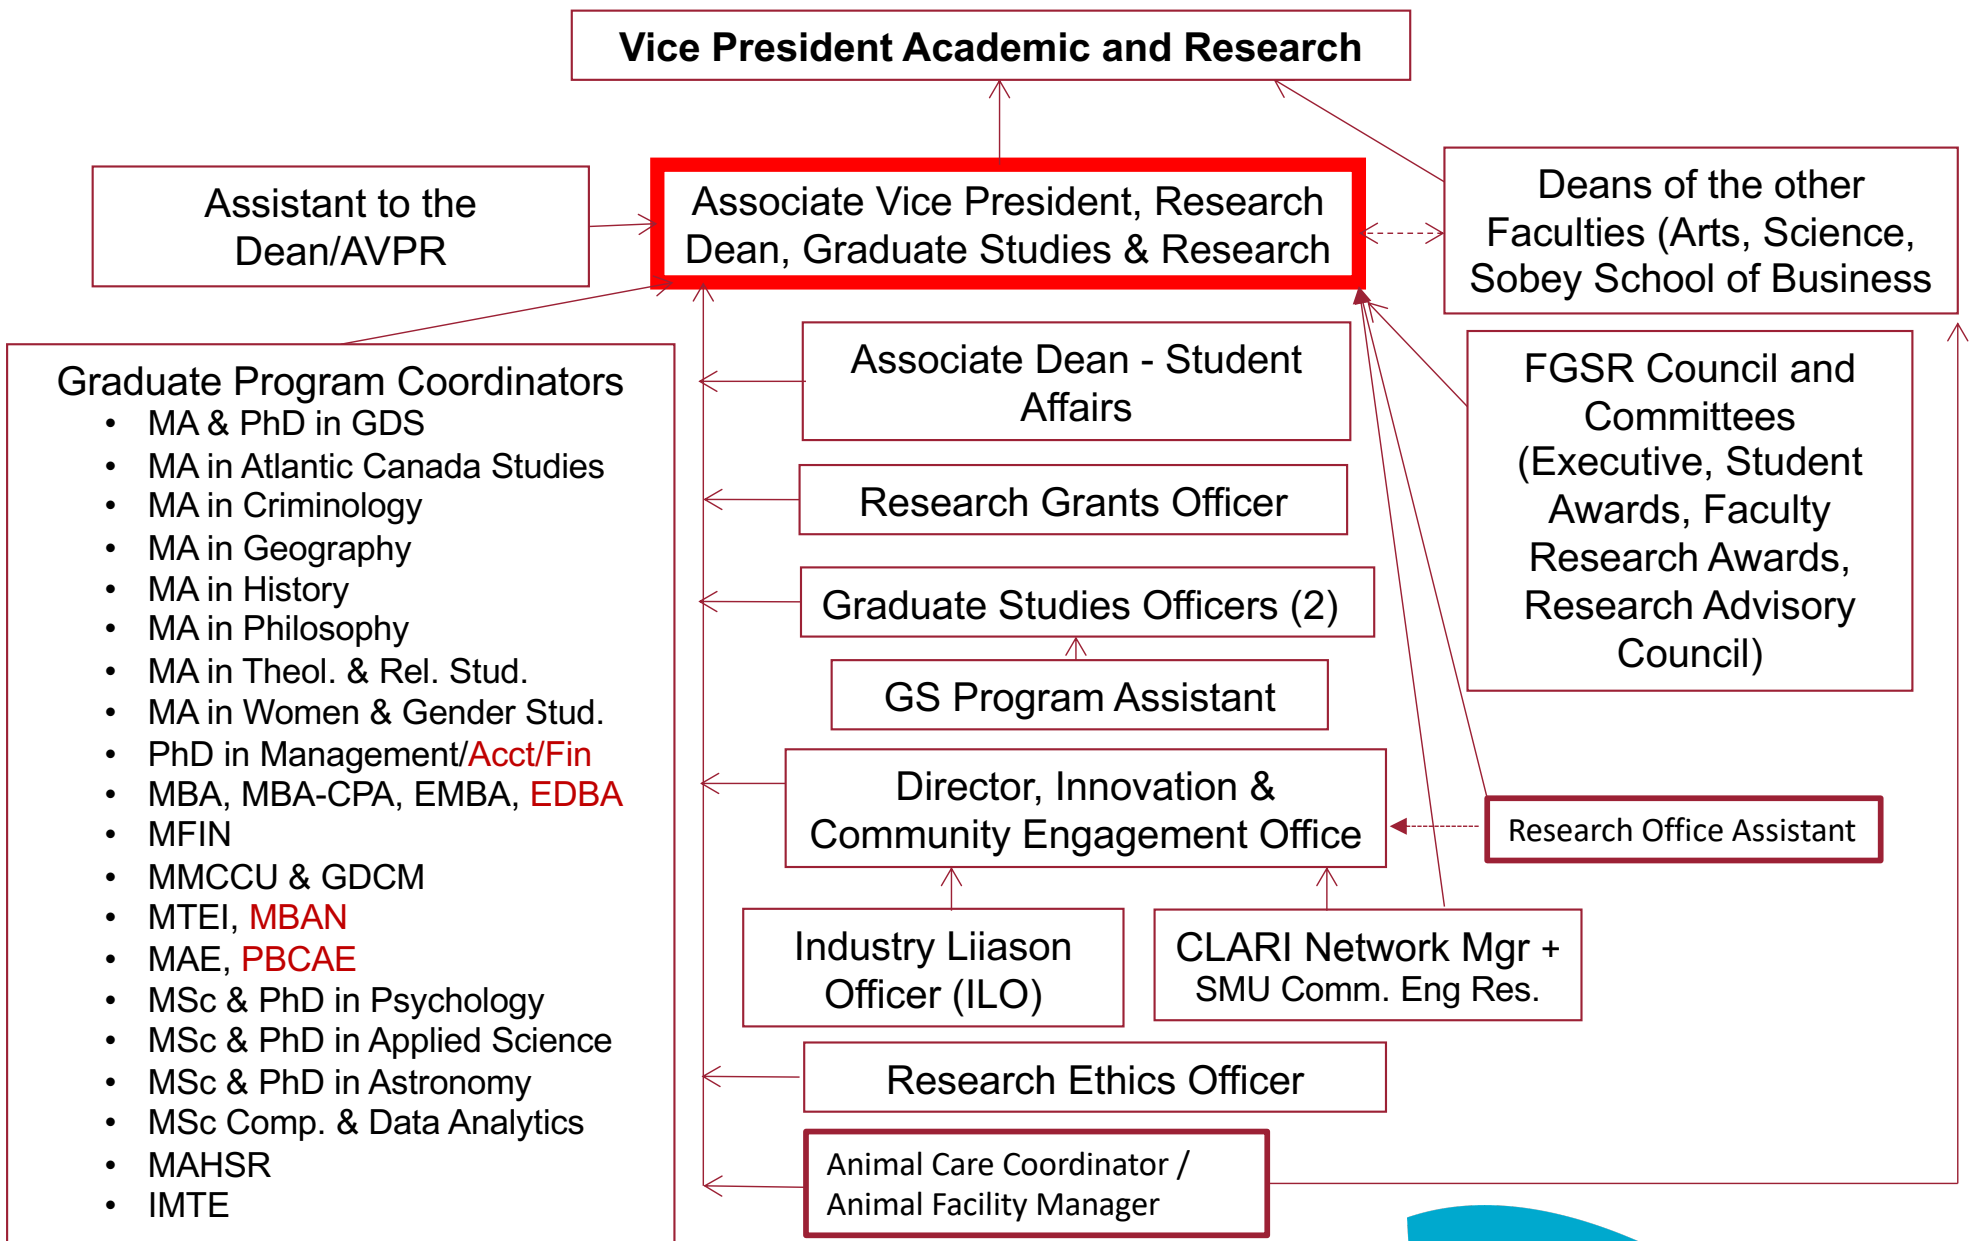

**Saint Mary's
University**

AGENDA

- **Graduate Studies:**
 - Overview of FGSR Structure
 - Review of Programs / Enrolment and Applications: Context & Trends
 - Summary of internal/external scholarships totals
 - New Programs & Changes, other Notes
- **Research:**
 - Recent SMU Results/Trends
 - Annual Review and Update Notes from the Research Office:
 - Reminder –Research Agreements Policy
 - Research Data Management
 - REMINDER – Spending & Hiring using your Research Grant Accounts
 - Canada Research Chair update
 - Overview of SSHRC and NSERC grant applications submitted (compared to last year)
 - REPORT: CLARI, Office of Innovation and Community Engagement
 - REPORT: Human Research Ethics Board update
- Any other items: Questions & Discussion

Reminder / Overview of FGSR “Structure”

These are the Federal Scholarships that received much national attention last year, as they finally received an Increase (\$27k for CGSM, \$40k for Doctoral)...

These actually make up only:

- 18% of our external support for students
- 9% of our total support for students (internal + external)

Two upcoming “direct-app”
Graduate Student Scholarship deadlines:

- **DURLAND GRADUATE SCHOLARSHIPS:**
direct-application method for students currently applying for grad programs (to start next year):
<https://www.smu.ca/durlandscholarships/index.html>
 - New students must apply by January 31
 - And must have completed their application to their grad program of choice also by January 31
 - Ensure all of your “top applicants” are aware.
- **TRIBE NETWORK GRADUATE SCHOLARSHIPS:**
direct-application method for students currently applying for grad programs (to start next year) and/or current students who will return in Fall 2025
www.smu.ca/fgsr/tribe-network-graduate-scholarship-internship.html
 - New and/or returning students must apply by February 28
 - For Black or Indigenous students focusing on computing and/or analytics (focus: MScCDA, MBAN...possibly MTEI, APSC)
 - Ensure all potentially eligible students are aware.

New Programs/Changes:

- Running first Cohorts this 2024-25 year:
 - **MAHSR-P** ... 12-month course-based online program (delivered jointly with UNB/MUN/UPEI); parallels existing thesis option
 - **Online stream of MSc I/O Psychology** (same content/requirements as existing in-person program)
 - **Online Graduate Diploma in Personnel Psychology**
- Passed at Senate (and pending MPHEC approval):
 - **Graduate Diploma in Health Data Analytics**
- Ideas that are well-advanced and being developed:
 - **MA in Critical and Creative Practice**
 - **MSc in Engineering and Industrial Management**

Last Graduate Student notes:

- We will do a 2nd round of “brown-bag lunch discussions” in the area of student supervision & mentoring
 - **One focuses on supervising undergraduate student employees/research-assistants.** (this is collaboration of FGSR, Career Services, and People & Culture)
 - **Second one focuses on graduate supervision and committee membership** (mentoring roles)
 - Changes that have been implemented in admission process...fallouts of the ongoing changes/restrictions from IRCC for international students:
 - “Admission deposits” (“seat deposits”) now required of all students – graduate and undergraduate – to confirm acceptance of admission ... Note: not “extra \$”, just \$ toward tuition paid “up front”
 - This will come with more attention to timely admission acceptance
 - Coming: process to confirm citizenship, study permits (for all students)

RESEARCH – Recent Results/Trends

(show 2023-24 data from Fall 2024 Res. Recognition Event)

FACULTY GRANTS: **114 FACULTY MEMBERS** directly received funding **\$11.42 Million** in **Sept 2023 to Sept 2024**

| Facilitated By: | # Grants/Cont | Total Funding |
|-----------------|---------------|---------------------|
| CRC | 6 | \$600,000 |
| RGO | 115 | \$4,771,383 |
| OICE | 112 | \$6,047,946 |
| Total | 233 | \$11,419,329 |

Plus acknowledging the additional annual support from Tri-Agencies for “indirect cost of research” support:

RESEARCH SUPPORT FUND ~\$1,082,000

(NOTE: direct student scholarship \$ not included in these totals)

Roughly \$500k/year from research contract overhead → operating

RESEARCH – Recent Results/Trends

Charting 7 year progression – by Faculty (Arts, Sobey School of Business, Science)
(CRCs not included in this table)

Annual Review Info and Update Notes from the Research Office

(some things are new, some are ones we like to Remind annually)

REMINDER – Research Agreements Policy:

- see our FAQ Page for Applying for Grants & (mostly) Contracts (<https://www.smu.ca/fgsr/fgsr/grants-agreements-faq-for-faculty.html>)
- the process for applying for contracts, and getting assistance/support is outlined, including ensuring early connection with Office of Innovation and Comm Engagement (OICE) within FGSR
- other notable part of the Policy:
 - **Simplified policy** for university required charge for “overhead” (indirect cost of research): minimum is **flat rate of 20% of total direct research costs**
 - The use (or distribution) of this collected overhead includes re-directing a portion back for use by the professor holding the contract (**20% of the collected overhead is re-directed back this way to the PI**)

Annual Review Info and Update Notes from the Research Office

(some things are new, some are ones we like to Remind annually)

Research Data Management:

- Federal Tri-Agencies *have* moved forward on implementing a national Research Data Management Policy (https://www.science.gc.ca/eic/site/063.nsf/eng/h_547652FB.html)
- Next steps:
 - Inclusion of Research Data Management (RDM) Plans will be required on selected grant program applications
 - all universities will need to have **public RDM Institutional Strategies** (to remain eligible for TriAgency funding) ...
SMU (me!) is late – coming shortly!
- Assistance locally with RDM experts in Library – Peter Webster (lead)
- National Portage portal: Data Management Planner Assistant (<https://portagenetwork.ca/tools-and-resources/dmp-assistant/>)
- **Will launch Institutional Strategy *SOON* (!), focusing on providing guidance and assistance and tools for faculty**

Annual Review Info and Update Notes from the Research Office

(some things are new, some are ones we like to Remind annually)

REMINDER – Spending & Hiring using your Research Grant Accounts:

- Realize that keeping up with proper processes, and allowances/eligibility, can be challenging (including using/interpreting our tools)
- Now with Tri-Agencies “Principles-based Accounting”, we do not have special NSERC/SSHRC “books” anymore to say what research expenses are eligible and which aren’t ...

Rather, ALL SMU research-account spending is governed by same set of guiding principles to determine eligibility:

Annual Review Info and Update Notes from the Research Office

(some things are new, some are ones we like to Remind annually)

REMINDER – Spending & Hiring using your Research Grant Accounts:

- Rather, ALL SMU research-account spending is governed by same set of guiding principles to determine eligibility:
 - **contribute to the direct costs of the research/activities for which the funds were awarded, with benefits directly attributable to the grant**
 - **not be provided by the administering institution to their research personnel**
 - **be effective and economical**
 - **not result in personal gain for members of the research team**
- Have Developed a “*Researcher Accountability Statement*” that we emailed out for you to see a few months ago (will implement soon) – addresses many areas of concern noted at our last Tri-Agency audit
- SEE our “Researcher FAQ” page:
 - <https://www.smu.ca/fgsr/research-faq.html>

Annual Review Info and Update Notes from the Research Office

(some things are new, some are ones we like to Remind annually)

REMINDER – Spending & Hiring using your Research Grant Accounts:

- When research accounts (“funds” more correctly in SMU “FOAP” language) are setup for faculty’s internal or external grants/contracts/conference funding: there is always an “expiry date”
 - Accounts established for specific purposes, and can’t be maintained indefinitely nor “mixed” with other influxes of money
 - Accounts not designed for use like “bank accounts” for saving for future use, rather are designed for specific intent and purpose
 - Normally you will be given the expiry when account setup, or (for older accounts) be notified of impending closure.

Annual Review Info and Update Notes from the Research Office

(some things are new, some are ones we like to Remind annually)

Canada Research Chair update:

- Last year, we completed a search – and submitted nomination for our currently open Tier II CRC (this will be in “Global Change Biology”). We will announce the individual once CRC confirms nomination.
- We had followed a process for filling Chairs as approved through our Equity, Diversity, and Inclusion (EDI) Action Plan (<https://www.smu.ca/webfiles/SMU-CRC-Action-Plan-June2020.pdf>) to select the area / department to host the replacement CRC (based on submitted proposals).
- We will go through this process AGAIN *very soon* for *TWO* Tier II CRC openings which are imminent
 - Karly Kehoe completes her CRC on Dec 31, 2025
 - Christa Brosseau completes hers on Jun 30, 2026)

Eskinuapimk: Mi'kmaw Ethics Watch Review

Engagement update with Eskinuapimk: Mi'kmaw Ethics Watch Review (MEW)

What is understood as the Mi'kma'ki Territory and Governance?

Mi'kma'ki includes all of what is now Nova Scotia and Prince Edward Island but also includes the north shore of New Brunswick, inland to the Saint John River watershed and the Gaspé Peninsula of Quebec. Mi'kma'ki extends to eastern Maine and parts of Newfoundland including the islands in the Gulf of St. Lawrence as well as St. Pierre and Miquelon.

What is the order of steps for SMU researchers?

Researchers are informed to communicate with MEW early during the research plan preparation phases because MEW jurisdictional review areas and availabilities are particular, evolving and the review criteria is distinct to MEW.

MEW provides quick and well-defined direction about what needs to be considered during the initial design stages and about the upcoming regulatory affairs as multiple internal and external teams as well as possible relating communities begin their work.

The home SMU REB review process involves a request to supply evidence of the MEW opinion to register a request for review work. The MEW review is necessary and primary. The MEW review criteria is distinct to MEW environments. Such opinion is provided either in the form of an exemption or a clearance.

Researchers submit a Research Exemption Form to mew@cbu.ca.
